Mini Lesson: **Creating a PDF document**

For more InTAcT information visit the InTAcT webpage: <http://www.whitesboroisd.org/MP.cfm?P=4986&>

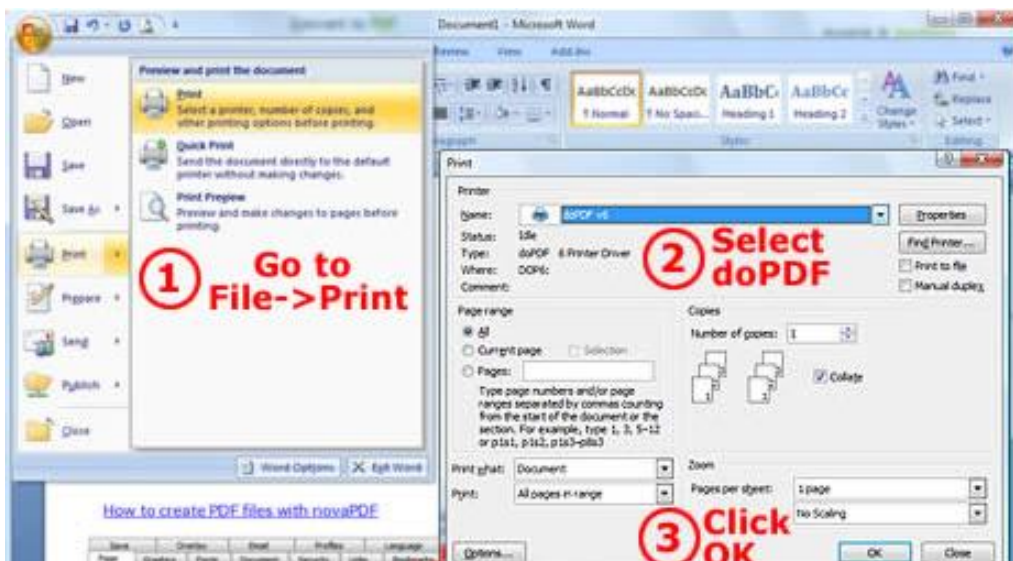

## What is a PDF?

PDF stands for Portable Document Format

A PDF is a file that will look the same on the screen and in print, regardless of what kind of computer or printer someone is using and regardless of what software package was originally used to create it. Anyone can download the Adobe Reader @ <http://get.adobe.com/reader/> (for FREE) and view PDF files.

## Use DoPDFs to create your PDF documents

Check out doPDF's free PDF converter. It is very simple to use. Once you have downloaded doPDF, you can create PDF files by selecting the "Print" command from just about any application. To get the download, visit their website <http://www.dopdf.com/>
